Foolish Saving

A penny saved is not always a penny earned. Sometimes it is two pennies lost. The merchant who spends nothing on advertising loses much more than he saves.

Anything that increases the favor, that adds sales, that multiplies customers is very pro-perly regarded as a good investment.

Advertising is a good investment — just as plate glass windows are. Advertising sells more goods to more persons than shop windows do.

A WORD TO THE PUBLIC

Do you resent having a merchant address his message to you in the form of an adver-tisement in our columns? On the contrary, is not your impulse to respond to his friend-ly overtures?
